Surface Management Bonds Required

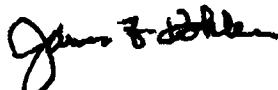

This office has been notified that notices to extend 3809 notices UTU-71615 and UTU-71638 were filed with the Henry Mountain Field Station. Prior to commencing operations, surface management bonds must be furnished with the Utah State Office, Bureau of Land Management (BLM). The bonds are to cover operations conducted by or on behalf of the principal/operator on the above-mentioned notices.

It has been determined that the reclamation cost for Notice UTU-71615 is \$3,384 and for Notice UTU-71538 is \$8,178. You must post surface management bonds for each notice to cover the reclamation cost. The bonds must be posted with this office within 60 days from receipt of this notice.

If you wish, you may post one statewide bond in the amount of \$11,562 to cover the two notices.

When filing a reclamation bond with the BLM, you must use the BLM personal or surety bond contract forms, enclosed. The BLM accepts surety bonds or personal bonds (in the form of a cash bond (cashier's/certified check), certificate of deposit (CD) and irrevocable letter of credit (LOC)). Additional information on the bond requirements is enclosed.

If you have any questions, please call Opic Abeyta at (801) 539-4123.

James F. Kohler
Chief, Branch of Solid Minerals
